**ARMAX POWER** POWER UP YOUR LIFE [WWW.ARMAXVAPE.COM](http://WWW.ARMAXVAPE.COM)

**5000 mAh BATTERY**  
With ARMAX POWER you don't need to worry about not having enough battery from 3000mAh or dealing with large multi-battery mods. Our fully charged 5000mAh battery is enough for more than 25ml of liquid.

**BEST-IN-CLASS FLAVOR EXPERIENCE**  
Specially optimized wide flow stainless dual coils generate more vapor per battery than other similar devices. Flavor reproduction is fine-tuned using particle analyzers and panel team tests. We use a voltage stabilizer to ensure consistent vaping during the day.

**SAFETY IS A MUST**  
Multi-level battery protection, chemistry, automated QC, internal fuse, hardware and software protection, pressure relief valve. On top of that, it has an embedded childproof cap and leak-proof top airflow.

5000 mAh  $\geq$  25 ml
